| <p>The kids had au pairs in the past who were very happy with our family. We still keep in touch with both of them and are still following their lives. It is quite fun. I have a lake house about 2 hours away. The house is a nice house that sits very close to a very big lake. I have a boat and also skis and water tubes. I would like to do many weekend and week trips to the lake house. I am more than open to you bringing a friend or just joining my family on all trips. All in all, we would consider you part of our family, free to do, or not do, whatever you want with us. I will spend time introducing you to as many people as I can. I really think you will enjoy our family and the setting. Our house is quite big with a nice basement. There is a room off the basement with a private bathroom. There is also another room upstairs next to the kids' room. You would share the bathroom with the kids. You could have whichever room you choose. We also have a nice deck in the back of our house. The neighbourhood is very friendly and the kids often play in the front of our house. You will most likely have a Nissan Pathfinder SUV to drive, unless you would prefer a smaller car. We can talk about this.</p> | <p>8 year old son 5 year old daughter</p> | <p>Just outside Washington DC</p> |
| <p>Right now we are a fairly small family – Mom, Dad and our 3 year old daughter. We are also very excited to be expecting a new addition to our family in early October. We live in Jenkintown, Pennsylvania which is a suburb north of Philadelphia. We have lived in our current location for about 4 years. Our daughter will be 4 in August and is already thinking about how she wants to celebrate her birthday. She likes to read books, listen to music, sing songs, ride her bike, play with her friends in the neighbourhood, draw, and go to the playground. She is inquisitive and likes to talk and interact with those around her. She spends part of her day in a pre-school near our house and loves it there. Our typical week from Monday to Friday can be busy. We realized that with busy work schedules, it is time for us to have more help with our daughter and the new baby. We are looking for an au pair who likes kids and is responsible. One of our au pair's duties will be to drive our daughter to school; thus being a good driver is very important. We also hope our au pair is excited to be in a new country for a year and would encourage her to explore the area, take courses and spend her free time doing activities she enjoys. We would love to learn about another country, and feel that it is important for our kids to learn that there are many types of cultures in this world.</p> | <p>3 year old girl</p> | <p>Jenkin Town Pennsylvania</p> |
| <p>This is our second year participating in the Au Pair program. We have spent a wonderful year with our first au pair, Anna who is from Sweden. While we will be sad to say goodbye to her when it is time for her to go home, we are excited to adding a new member to our family. I know that a move to another country to live with strangers must be an exciting yet anxiety inducing prospect. I can assure you that we will help you in any way we can to make your visit to the United States as positive an experience as possible. In my family we were always encouraged to bring friends home for the holidays or offer them a place to stay if they needed one. My parents instilled in me from a very early age the importance of loving and accepting others for who they are and they taught me that hospitality is not something to be given out of politeness but rather it comes from the heart. We are a easy-going family and our relationship with our Au Pair is a flexible one. We work together on a weekly basis to determine a work schedule that is acceptable to both us and our Au Pair. We look forward to meeting you and welcoming you to our family.</p> | <p>2 boys (3yrs old) 1 Boy (15 months old)</p> | <p>Milton, Massachusetts</p> |
| <p>Hello from the Thatcher Family, we live in New York, NY. Mom and Dad are both in finance and we have four children. Based on experience we are looking for an older au pair (21yrs +); who has vast childcare experience with school age children; sporty; positive "can do" attitude; with lots of energy. As a family we love interacting with people from different cultures and our au pairs have their own car and a lot of autonomy and we treat them as part of our family, and ensure that they have a great year. New York is one of the most exciting cities in the world to live in, and there are plenty of au pairs in our area.</p> | <p>3 girls – (7 yrs old) 1 boy – (5 yrs old)</p> | <p>New York, New York</p> |
